

**Industrial Frigo** <sup>❄️</sup>*ice*®  
ICE & SNOW RIDES MANUFACTURER

# PRODUCT GUIDE

[www.industrialfrigoice.com](http://www.industrialfrigoice.com)

The most reliable ally for  
ice & snow events

# Specializing in ice skating rinks, snow & ice attractions

We are a global leader in ice and snow attractions, offering customized solutions such as IIHF-approved skating rinks, ice slides, speed tracks, bumper cars, curling lanes, and more — available for purchase or rental, indoors or outdoors, even in tropical climates.

Industrial Frigo Ice also creates ice & snow parks, from compact mall setups to full-scale themed cities.

We have always been passionate about innovation, with a strong focus on nature and sustainability. Our production is aimed at developing eco-friendly solutions, supported by continuous research and development.

MADE IN ITALY SINCE 2007

# 1500+ CLIENTS

More than 1500 customers have relied on Industrial Frigo Ice's professionalism, bringing extraordinary sporting events to life and enhancing public spaces.

# 2500+ PROJECTS

Over 2500 projects completed, from the United States to the Middle East our ice rinks, attractions and theme parks have enchanted everyone.

# 1.200K+ SQM

These are the square meters of ice surface that have covered recreational and professional ice rinks over the years.

From 2019 Industrial Frigo Ice has opened a new business branch, with offices and warehouse, in the United States to meet the great demand of our ice-skating rinks and attractions.

## Our ice everywhere in the world!

# More than ice: a complete partner for your ice rink project

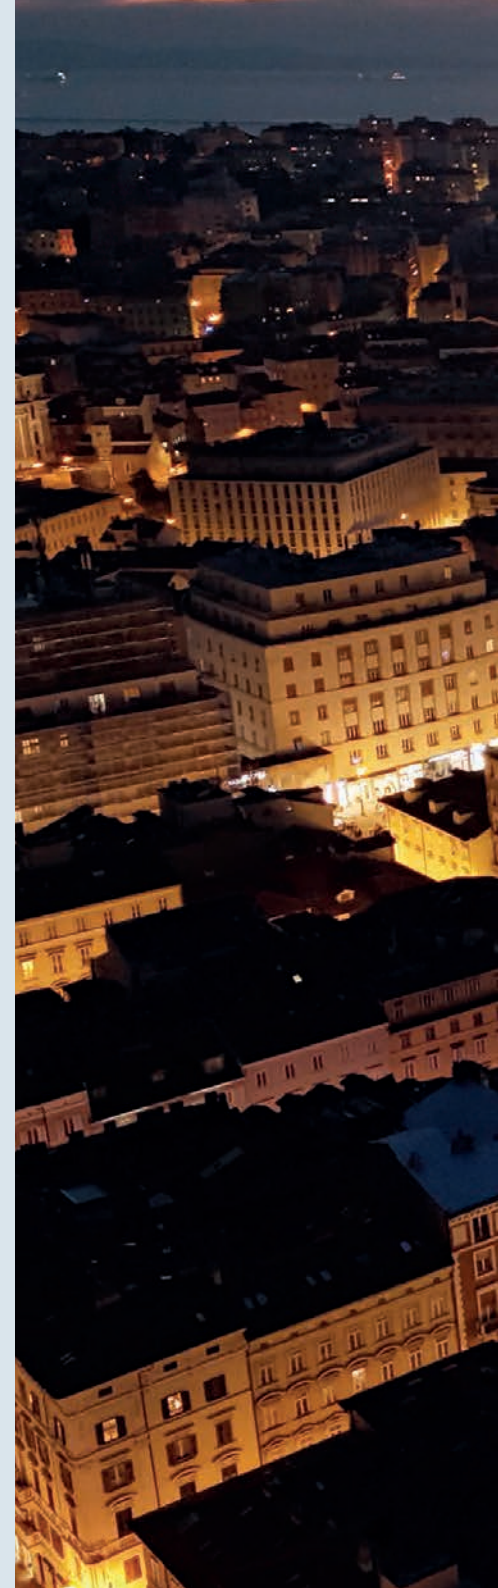

Industrial Frigo Ice excels in cutting-edge, turnkey and custom solutions for the construction of ice skating rinks — from temporary holiday events to permanent installations for hockey arenas or Olympic-level competitions.

## **Our solutions**

- Portable ice rink
- Figure skating rink
- Permanent hockey rink
- Permanent ice arena
- Curling ice rink
- Speed skating & short track rink

Surface made with

**100%**  
**REAL ICE**

## 01. ICE RINKS

# Portable ice rink

Our ice rinks can be installed anywhere — from parks, malls, and zoos during Christmas to weddings, birthdays, and other special events.

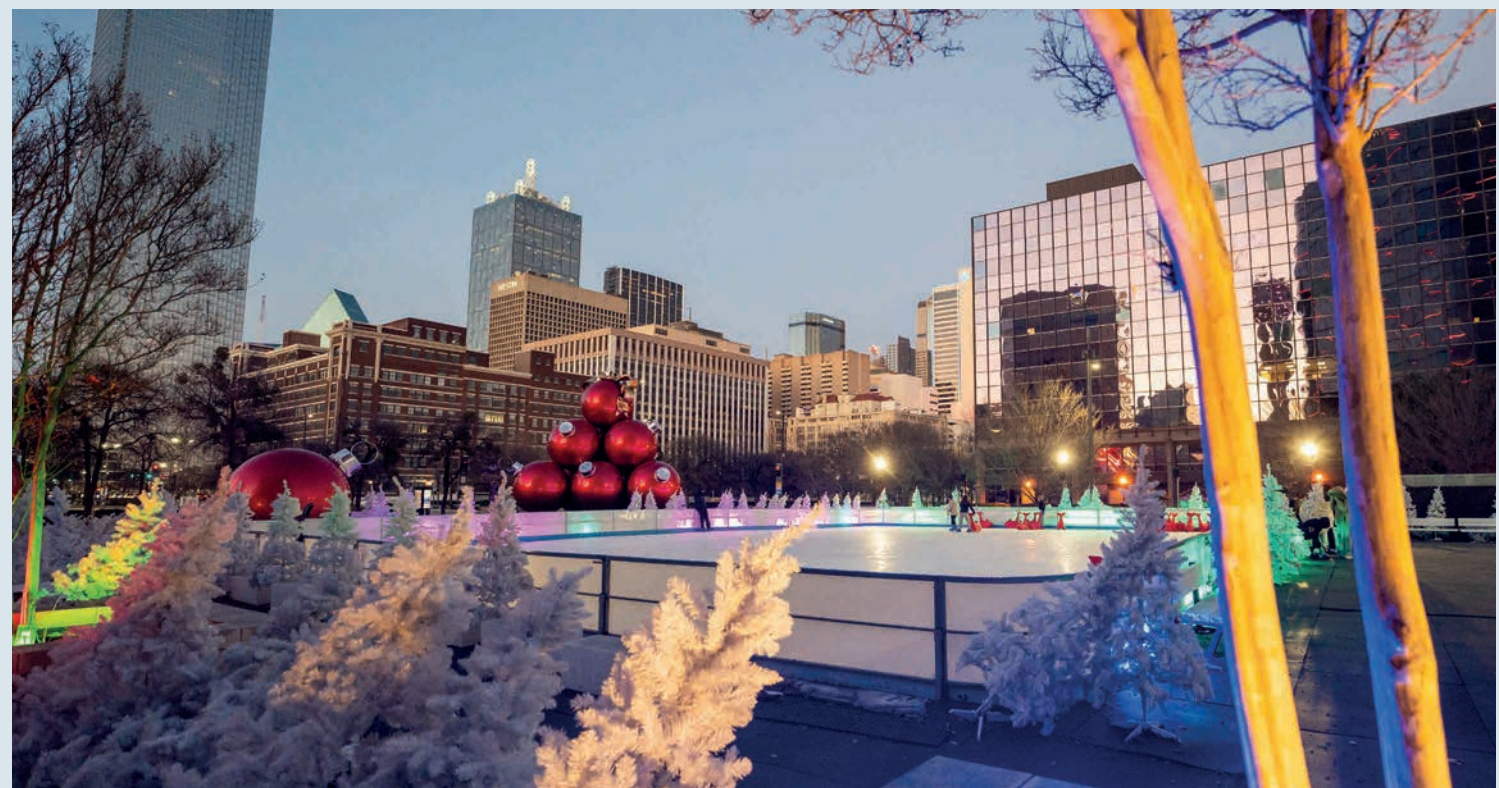

In winter, they work perfectly outdoors — with optional insulation sheets and a catching pool to manage melted ice.

We have a wide range of different sizes to perfectly fit into the buildings available spaces. Our professional service team takes care of the installation, training and after sale support.

Suitable for indoor & outdoor use also for tropical temperature!

## 01. ICE RINKS

# Ice rink for winter sport & ice arena

We manufacture ice hockey rinks in both standard versions: North American National Hockey League (NHL) dimensions and international dimensions in accordance with International Ice Hockey Federation (IIHF) specifications.

Ice hockey rinks are complete with all elements: next-gen chillers, board with glass guards, protective nets, scoreboard, player benches, goals and more.

Every ice rinks made by Industrial Frigo Ice are designed to meet the needs of athletes. The ice skating rinks ensure a crack-free surface and an ice density that allows good grip for skate blades.

Eco-friendly technology and quick, easy assembly

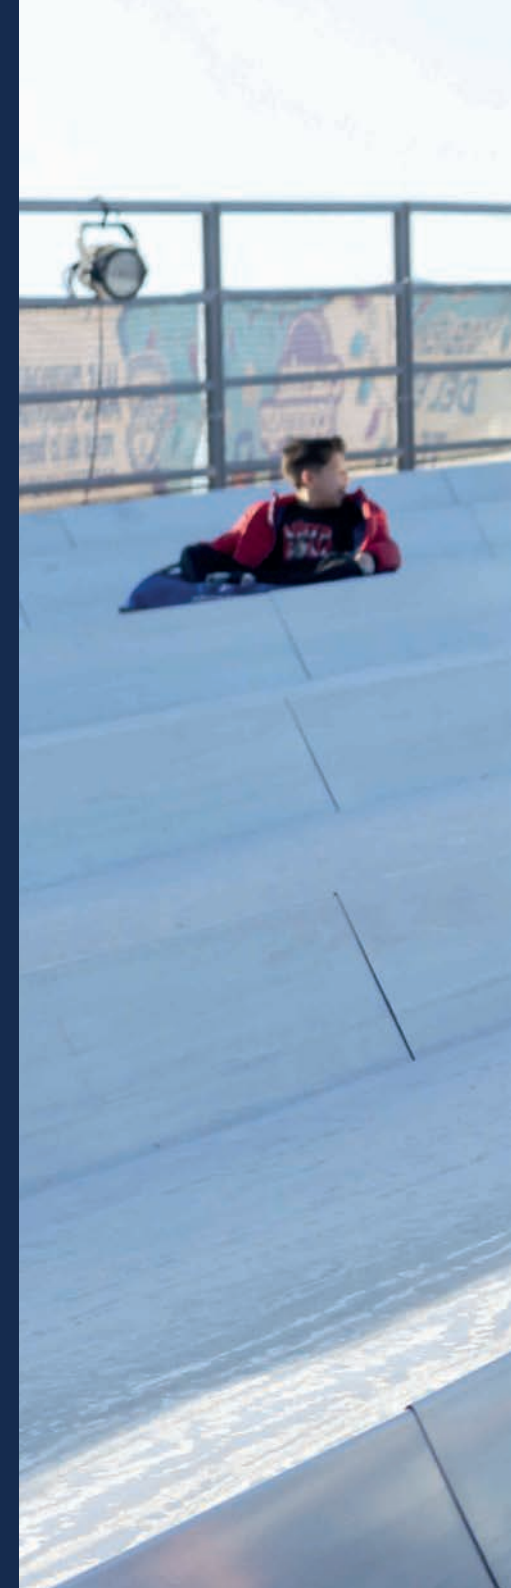

# The original ice experience for unforgettable winter events

Industrial Frigo Ice is proud to present its new, premium series of real ice attractions — perfect for indoor and outdoor use, and suitable for all ages.

## 02. ICE ATTRACTIONS

# Ice Tubing & Ice Toboga

A modular, high-throughput attraction for kids and adults. With single or multi-lane layouts, it's perfect for winter parks and events. Easy to install indoors or outdoors, customizable in length and design. Works in any climate, even warm ones. Add lighting and branding for maximum impact.

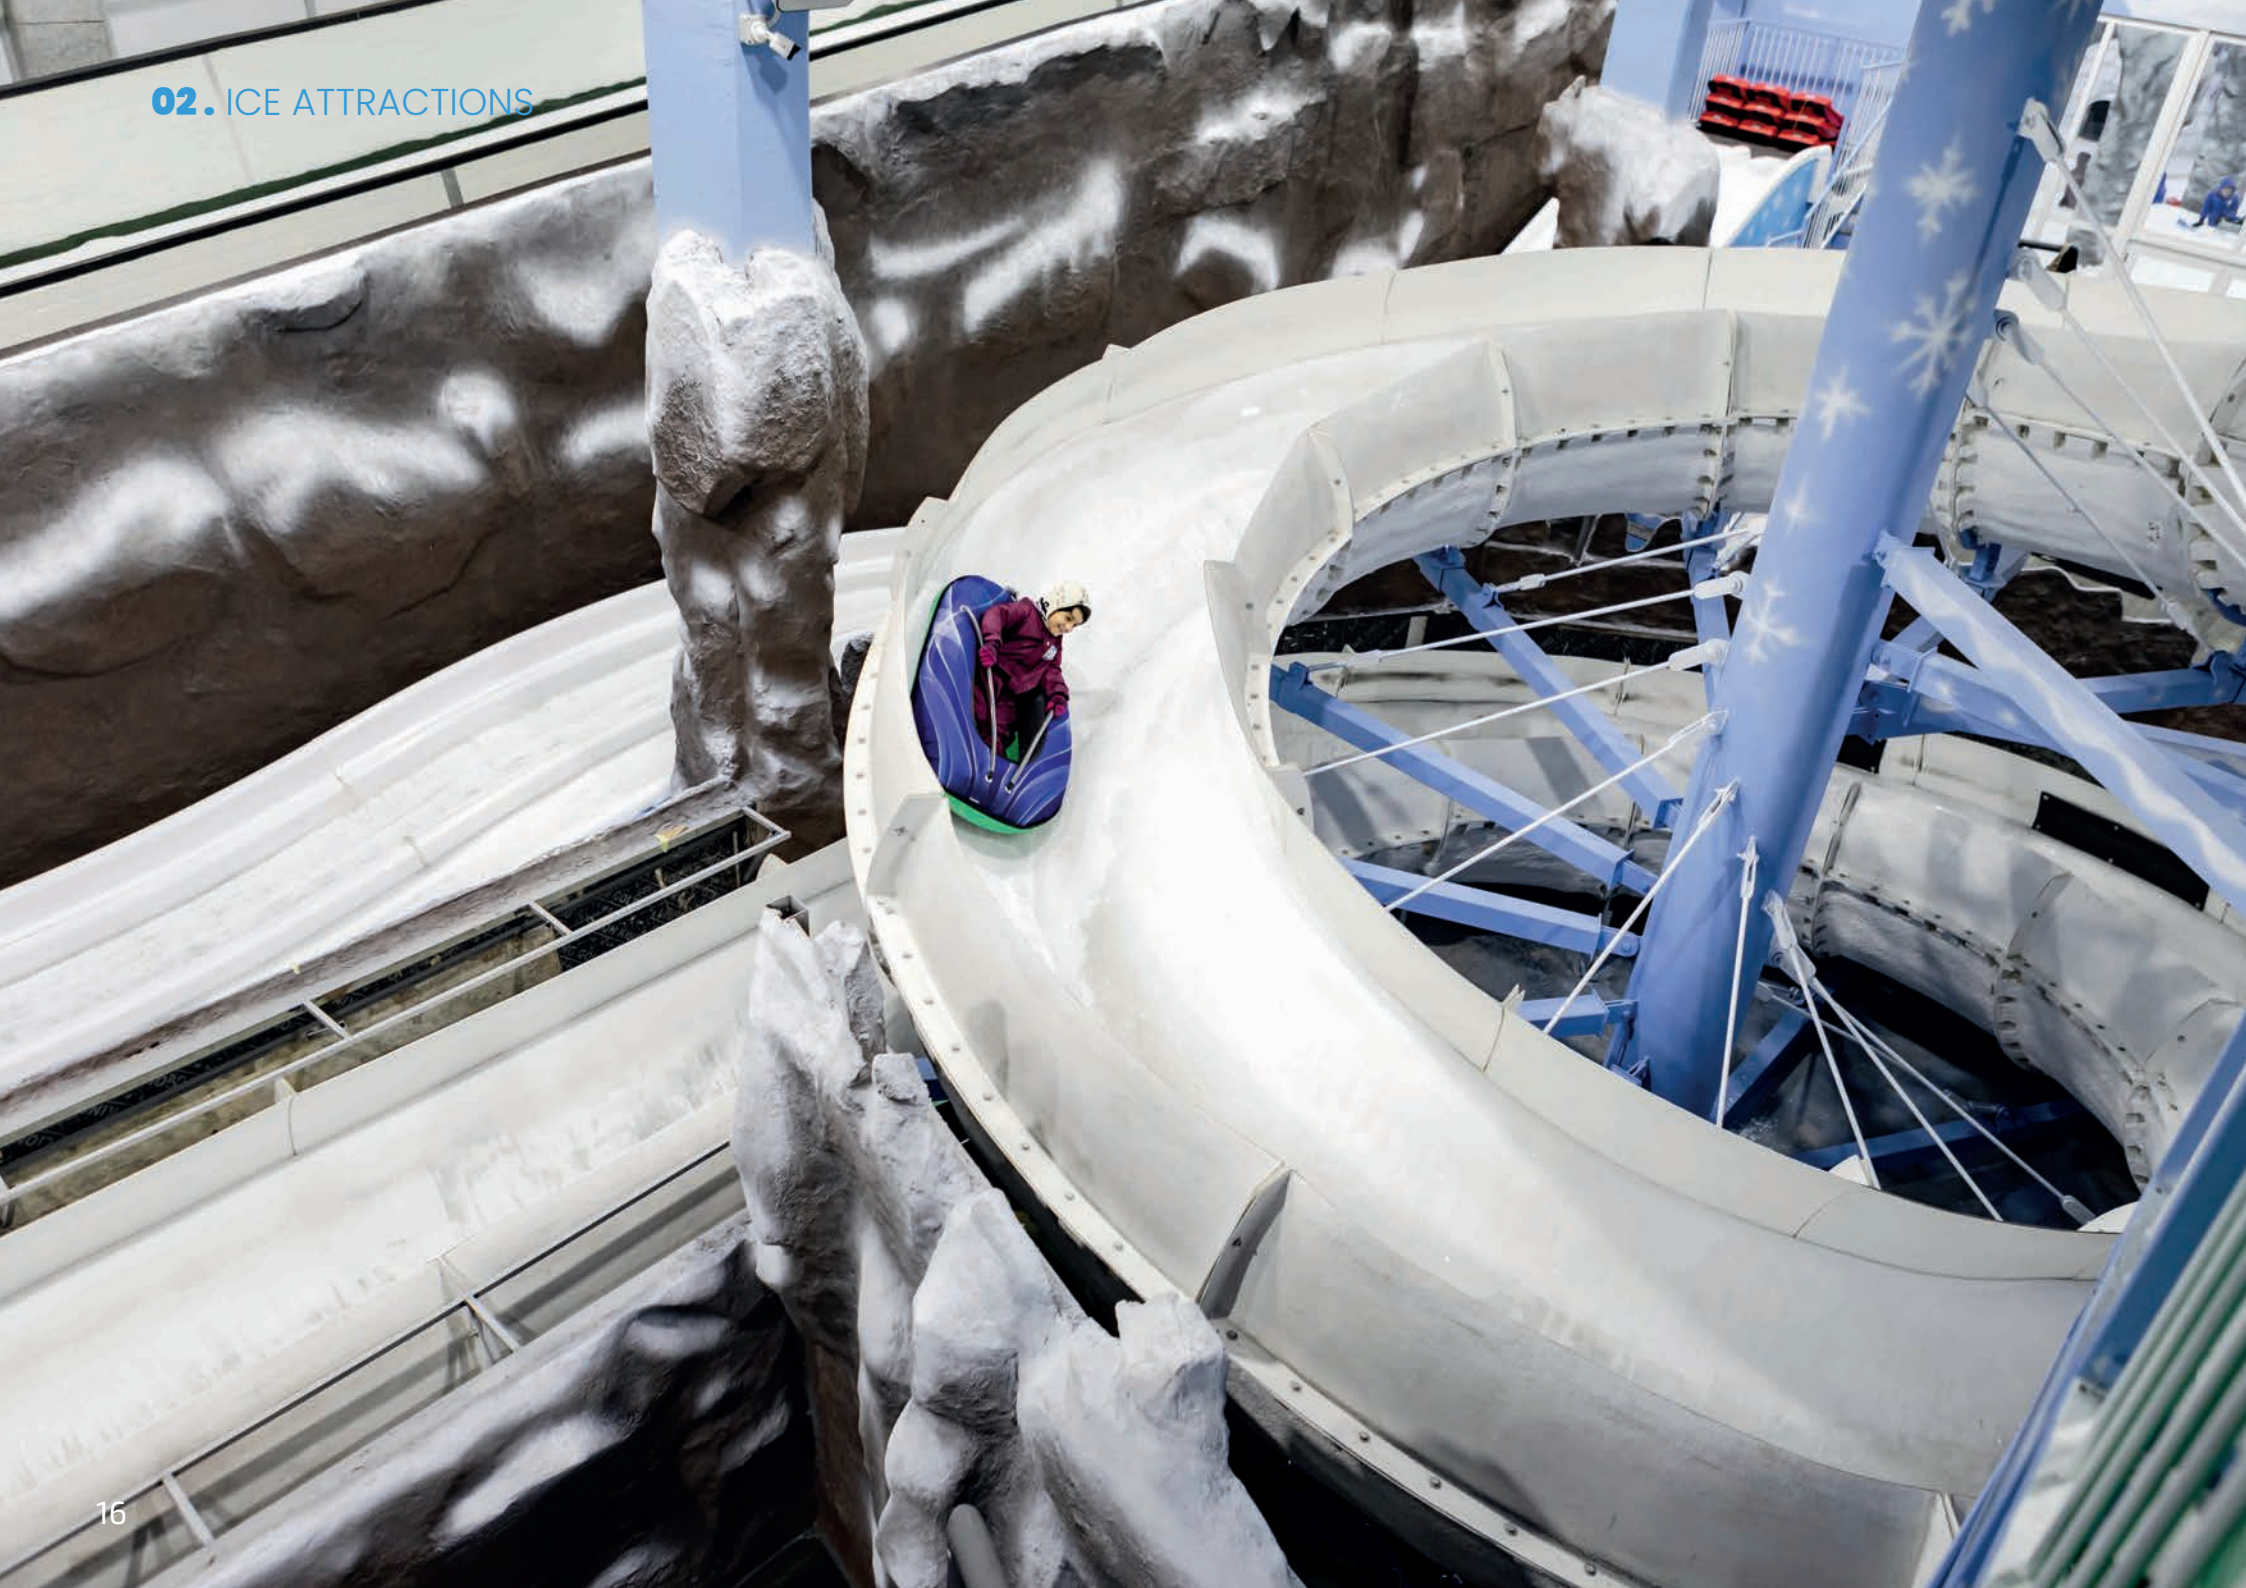

A wide range of accessories completes the experience: rigid or inflatable sleds, single or double-seaters, and multiple uphill transport systems such as conveyor belts or tow lines for smooth, continuous flow.

Quick and easy  
installation

## 02. ICE ATTRACTIONS

# Ice slides

Ice slides come in a wide range of shapes and sizes, offering endless customization options to fit any theme or design. Whether it's a futuristic experience, a magical fantasy world or a branded environment, the ice slides can be tailored to integrate with your vision. Ideal for winter parks or entertainment venues, they are versatile and adaptable to any setting.

Designed to perform even in warm climates, these slides deliver an exhilarating, unforgettable experience. More than just a ride, they create moments of excitement that engage visitors of all ages, making them a high-impact attraction with strong appeal and high throughput.

Works up to 26°C with our efficient cooling system.

## 02. ICE ATTRACTIONS

# Bumpers, cars, skating support and accessories

Enhance your seasonal events or winter parks with custom-built ice rinks for thrilling bumper car action on inflatable rings. In addition to bumper cars, we offer the option to create customizable tracks where visitors can race miniature cars on the ice with flexible designs to match your event's theme.

For beginners, we provide a variety of skating support options in different colors and shapes, helping users build confidence while enjoying the experience. All necessary equipment, including bumper cars, skates and skating support ensure a fun and safe activity for all participants.

Customizable tracks  
for a thrilling ice ride  
experience

# Introducing the revolutionary snow powder machines

We specialize in the production of real, long-lasting snow—even in warm climates. Our snowmaking technology is designed for maximum reliability and performance, making it ideal for a wide range of winter attractions.

### 03. SNOW ATTRACTIONS

# Ultimate snow system machines

With our advanced snowmaking systems, the possibilities are endless for creating high-quality winter attractions tailored to various environments.

**SNOWEVO** is perfect for creating expansive ski slopes, snowboarding parks, and freestyle areas with ramps, rails, kickers, and halfpipes. It's ideal for large-scale outdoor venues like ski resorts, snow parks, and events and provide consistent snow coverage for sports and training.

**SNOWVOLUTION**, on the other hand, is designed for more compact and versatile setups. It enables the creation of snow playgrounds, themed snow villages, and realistic snowfall effects indoors or in urban settings.

Suitable for indoor & outdoor use also for tropical temperature!

## Snow playground

The snow playground is a safe and clean space that simulates a mountain scenario with snow accumulations on the surface and dense snowfall controlled from above.

Our snow playground is the ideal attraction to enhance shopping malls, family entertainment centers and public parks. Our winter playground can be installed permanently or temporarily in any location, even if the temperature is several degrees above freezing.

With a potential of 20 m<sup>3</sup> of snow per day and outstanding energy efficiency, snow playgrounds are available in different sizes starting from 50 m<sup>2</sup>. Our team of designers and experts will provide the best solution for any need.

Realistic snowfall and expansive snow fields

## 04. ICE AND SNOW PARKS

We offer fully customized winter parks that combine both snow and ice features, designed to fit any venue and budget. Whether you envision a compact snow playground for a shopping mall or a large-scale, immersive winter wonderland with themed attractions, we provide flexible solutions. With options for both indoor and outdoor installations, our parks can include skating rinks, ice slides, snow playgrounds, and more, allowing you to create unique experiences for any type of audience.

Looking for a large-scale project that will amaze your audience?

ISP – Ice & Snow Park, our trusted partner, specializes in turnkey themed park solutions. From design to management, including all regulations and services like ticketing, ISP covers it all. Whether it's an ice and snow park or a complete Ice City, ISP offers tailored consulting to suit projects of any size.

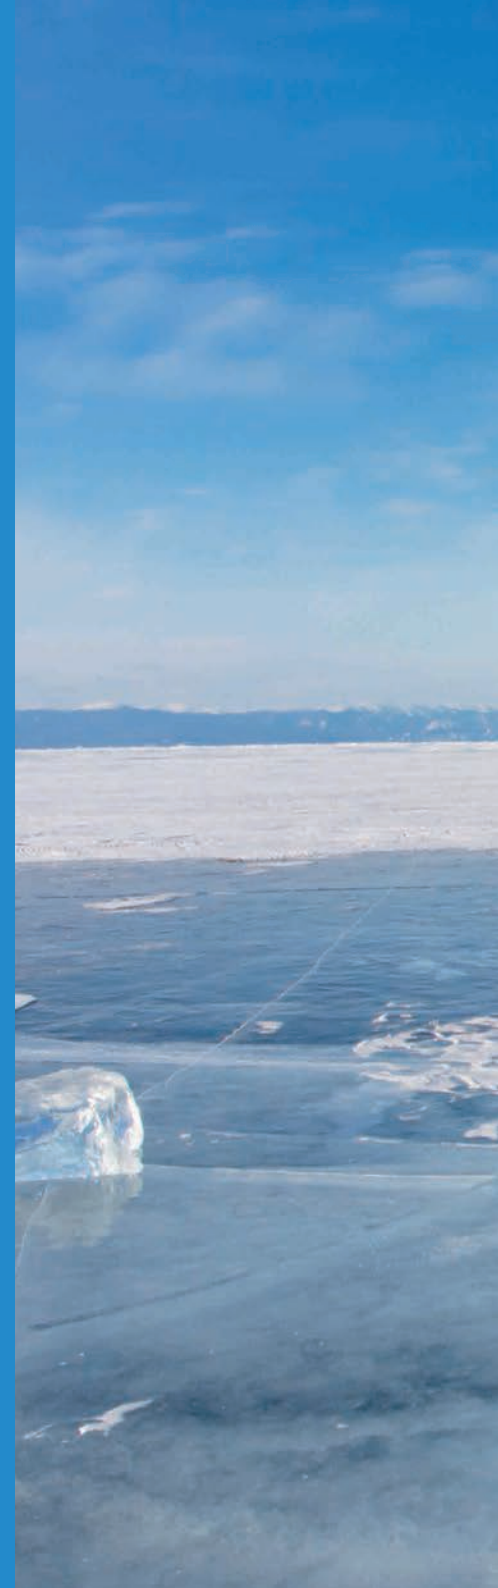

# Towards a greener future: sustainable refrigeration solutions for ice rinks & ice arenas

We have always been passionate about creating innovative solutions, focusing on nature and energy efficiency. As the phase-out of commonly used refrigerant gases approaches, we are proud to introduce our new line of green chillers, designed to offer sustainable, eco-friendly refrigeration while maintaining top performance and energy savings.

Our new eco line is specifically designed for ice skating rinks, ice sports arenas, and for revamping existing systems affected by the imminent phase-out of outdated refrigerant gases.

**100%**

**REFRIGERANTS**

**REAL ICE.**  
**LOW IMPACT.**  
**BIG RESULTS.**

The natural choice for your ice rinks

03. CHILLER FOR ICE RINKS

The advent of new natural refrigerant gases marks a breakthrough in cooling technology, ensuring higher efficiency, environmental sustainability, and regulatory compliance.

Through continuous innovation and responsible solutions, we strive to reduce environmental impact while ensuring high-performance, energy-efficient, and safe refrigeration systems for a better future.

RPP R-290  
NATURAL CHILLER

Powered by natural propane, our solution delivers sustainable refrigeration for ice rinks, combining high performance with low GWP and zero ODP.

Main characteristics

- Maximum repeatability
- Minimum variety of items in stock
- High optimization of assembly times
- internal hydronic kit
- Gateway: remote control system

COOLING CAPACITY	
Power range	90   720 kW
User fluid temperature	- 10°C   14°F
Max ambient temperature *	+48°C   118°F

\* Super tropicalized versions

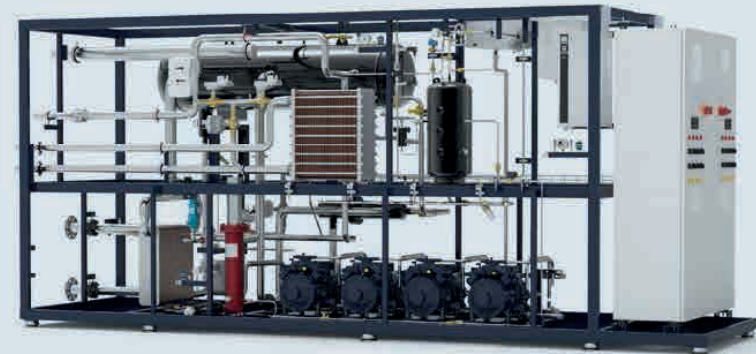

# IHNW R-717

NATURAL CHILLER

Known for its excellent thermodynamic properties R-717 (ammonia) is a natural, highly efficient refrigerant with zero ODP and zero GWP.

## COOLING CAPACITY

Power range	360   550 kW
User fluid temperature	- 12°C   10°F
Max ambient temperature	+35°C   95°F

# ICO R-744

NATURAL CHILLER

R-744 (carbon dioxide) is a highly efficient and environmentally friendly refrigerant, with zero ODP and a very low GWP.

## COOLING CAPACITY

Power range	300 kW
User fluid temperature	- 12°C   10°F
Max ambient temperature	+35°C   95°F
